

Alumni Awards

Listing of All Award Honorees

The Carnegie Mellon Alumni Association honors exceptional Carnegie Mellon alumni, students and faculty for their contributions to the university, their communities and their professions.

Carnegie Mellon University

More than half a century ago, the Carnegie Mellon Alumni Association presented its first Alumni Awards.

Since then, more than 750 individuals have been recognized for their achievements in the arts, humanities, science, technology and business, and for their service to the university. Those honored with these awards have distinguished themselves not only in their professional and student lives, but in their dedication and commitment to Carnegie Mellon.

Among our greatest assets are the alumni, friends and students who continue to make possible this university's vigorous pursuit of excellence.

No other university has come farther faster than Carnegie Mellon in its first 100 years.

We are proud to celebrate some of the individuals who have helped build this institution along the way.
